KURE BEACH

- The Faith Center on the Beach continues to serve people as it has since 1984. It is open and ready to serve your ministry needs. This unique ocean front facility will sleep up to 42 guests.
- The two old army barrack beach houses have been removed from the site. The site is ready for new construction.
- Construction has been postponed due to unforeseen problems with zoning, building codes and local easements, all of which have changed since our initial construction approval.
- Construction is also delayed due to lack of funds for this project. The board will be carefully assessing a financially responsible time to move forward with this much awaited construction.
- We ask for your prayers for progress in moving this facility forward.
